Laude System

Lake Mills High School will recognize graduating seniors through the Laude System. The Laude System acknowledges student achievement through a combination of a student's cumulative grade point average and the number of honor points accumulated throughout their high school career. Student receive .5 points per semester (AP 1 point per semester) with a grade of a B- or above in the eligible course in the chart below.

The requirements for laude recognition at graduation are: having a minimum cumulative GPA of 3.4, at the end of a student's 7th semester and a laude score of at least 16 at the end of a student's 8th semester. A student's cumulative GPA and honor points mathematically create an overall laude score.

The three possible laude distinctions are:

- laude score of 16-31.99: Cum Laude-graduating with honors (white cord)
- laude score of 32-49.99: Magna Cum Laude-graduating with great honors (silver cord)
- laude score of 50+: Summa Cum Laude-graduating with highest honors (gold cord)
