

A straight line down  
Is really fun  
When you make  
The number 1 !!

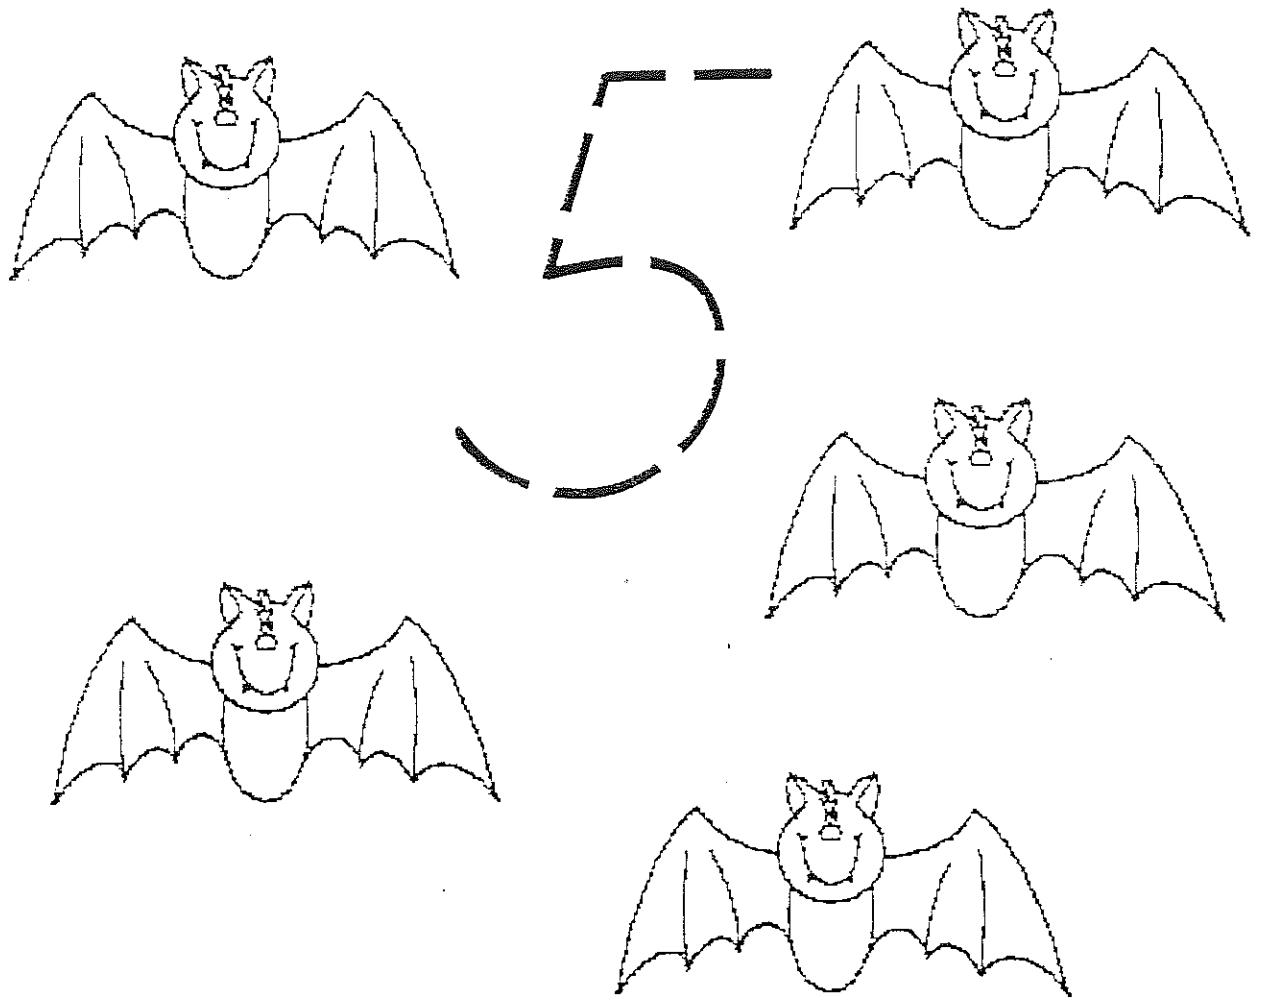

*Climb over the hill  
And slide down the lane  
Ride across the track  
On a choo-choo train!!  
Two, Two, Two!!*

*Around the tree,  
Around the tree!  
That's the way you make  
A 3!*

*Down and over,  
then down once more  
That's the way  
To make a 4!!*

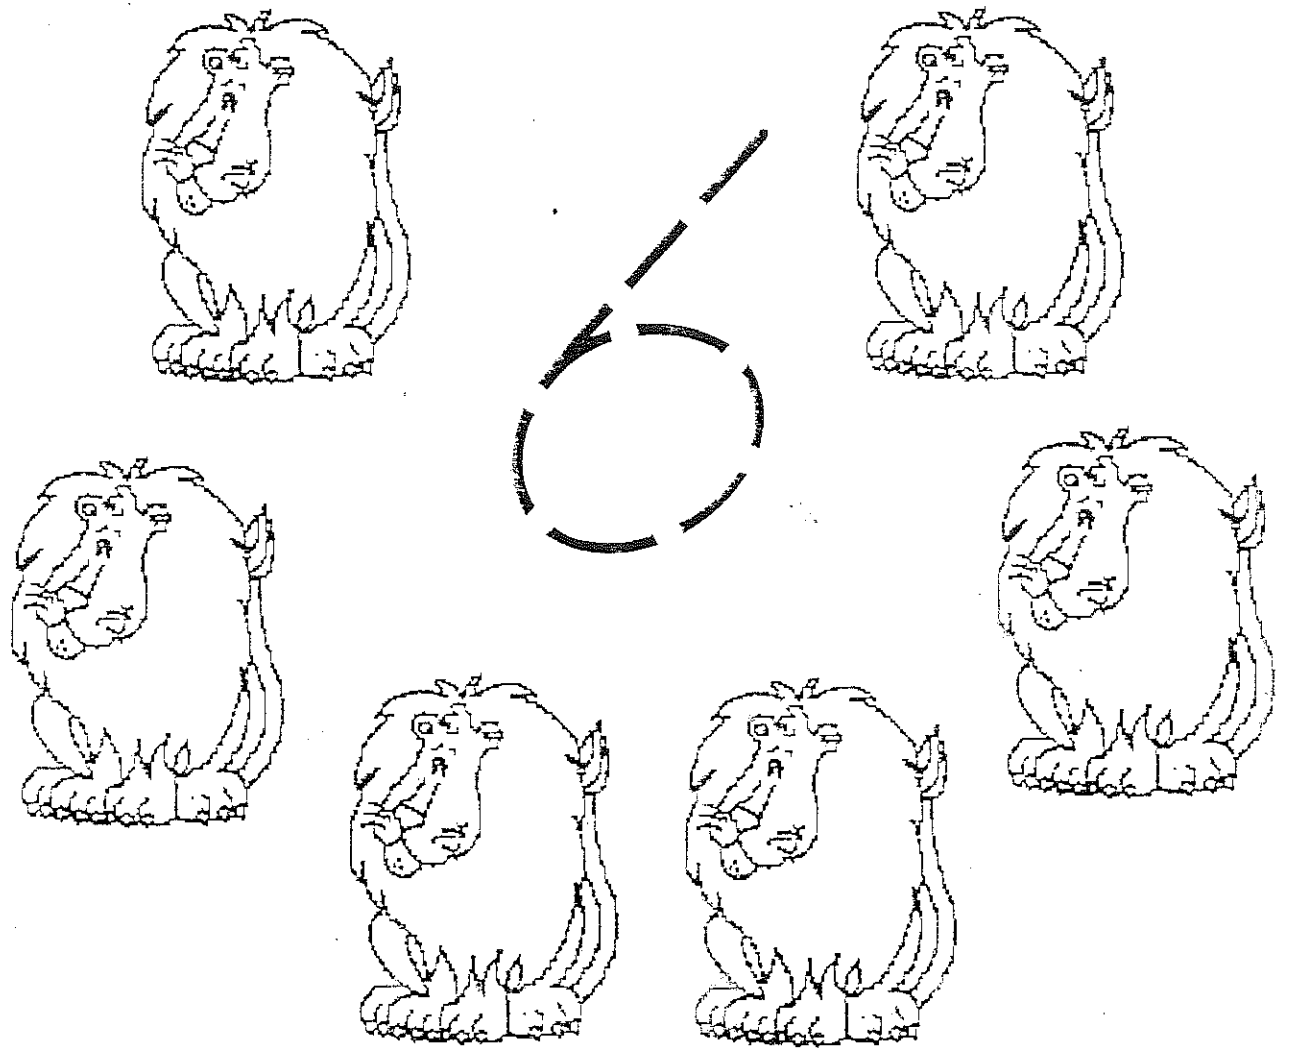

*Slide back and down*

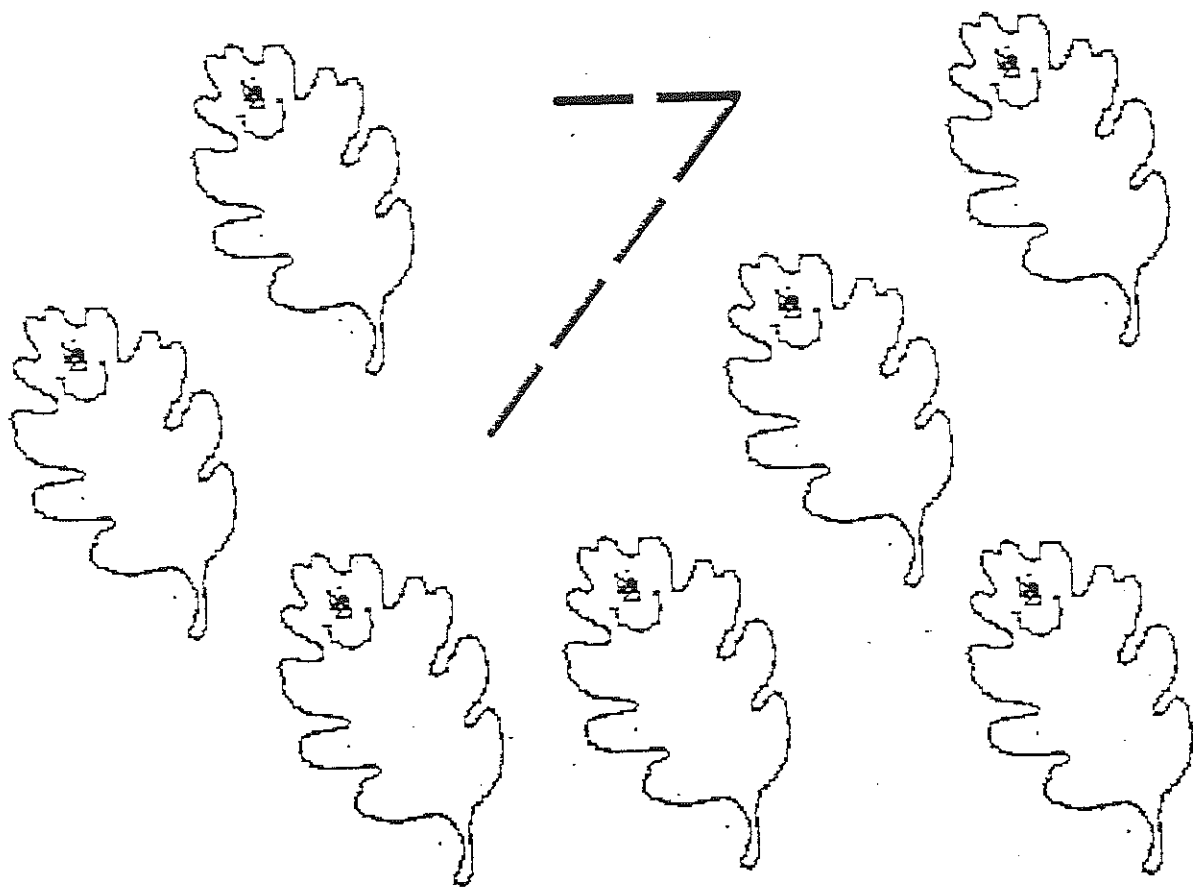

*Then around,*

*Look to see*

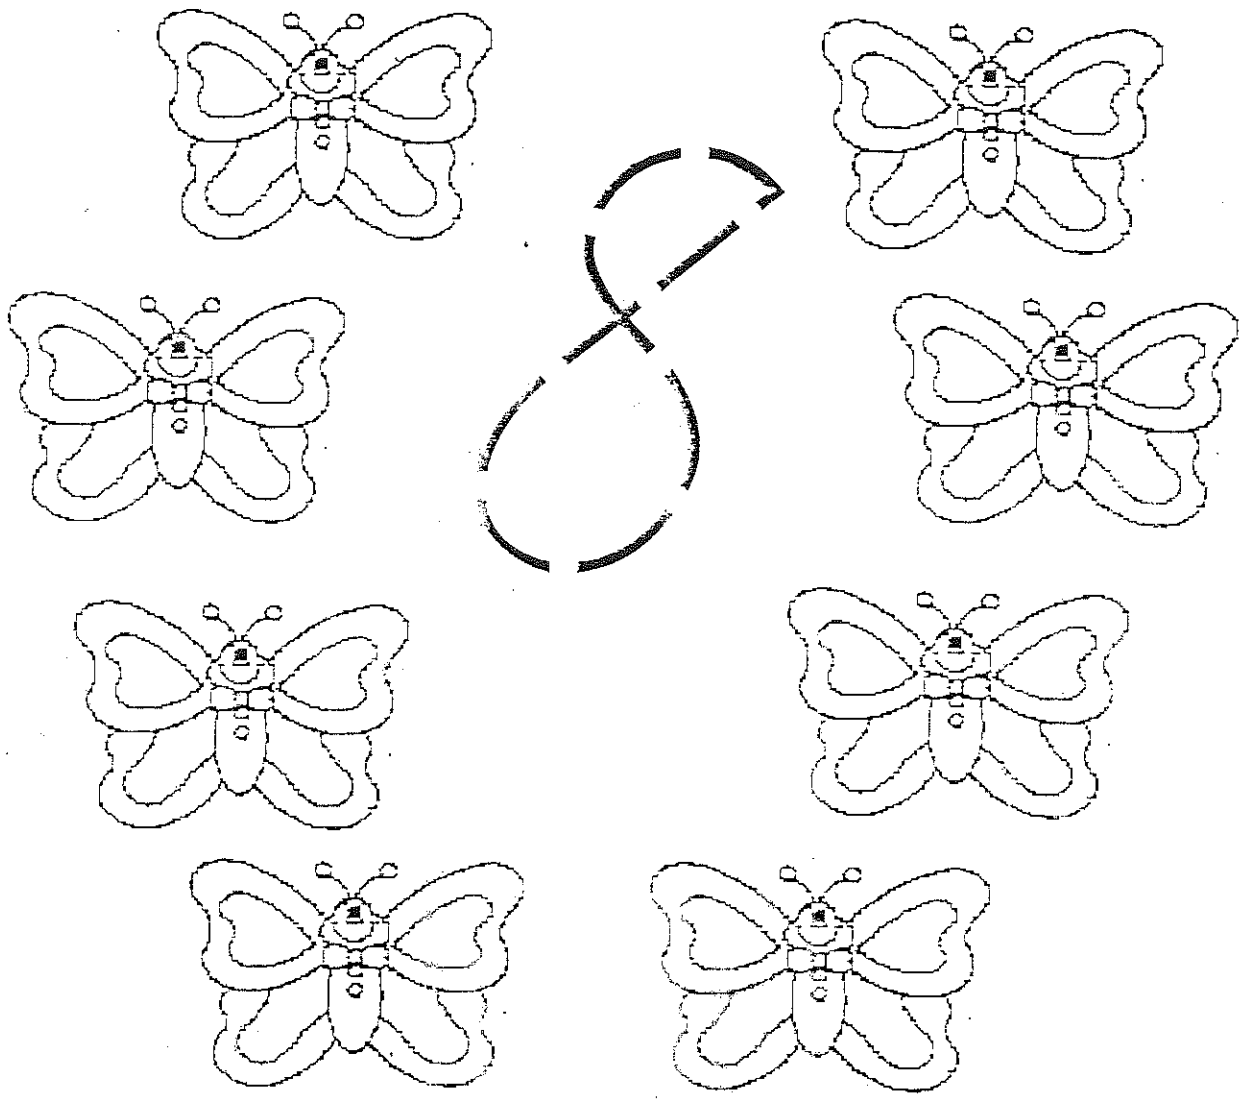

*The 5 you've found!!*

*Roll a hoop  
And make  
A loop!*

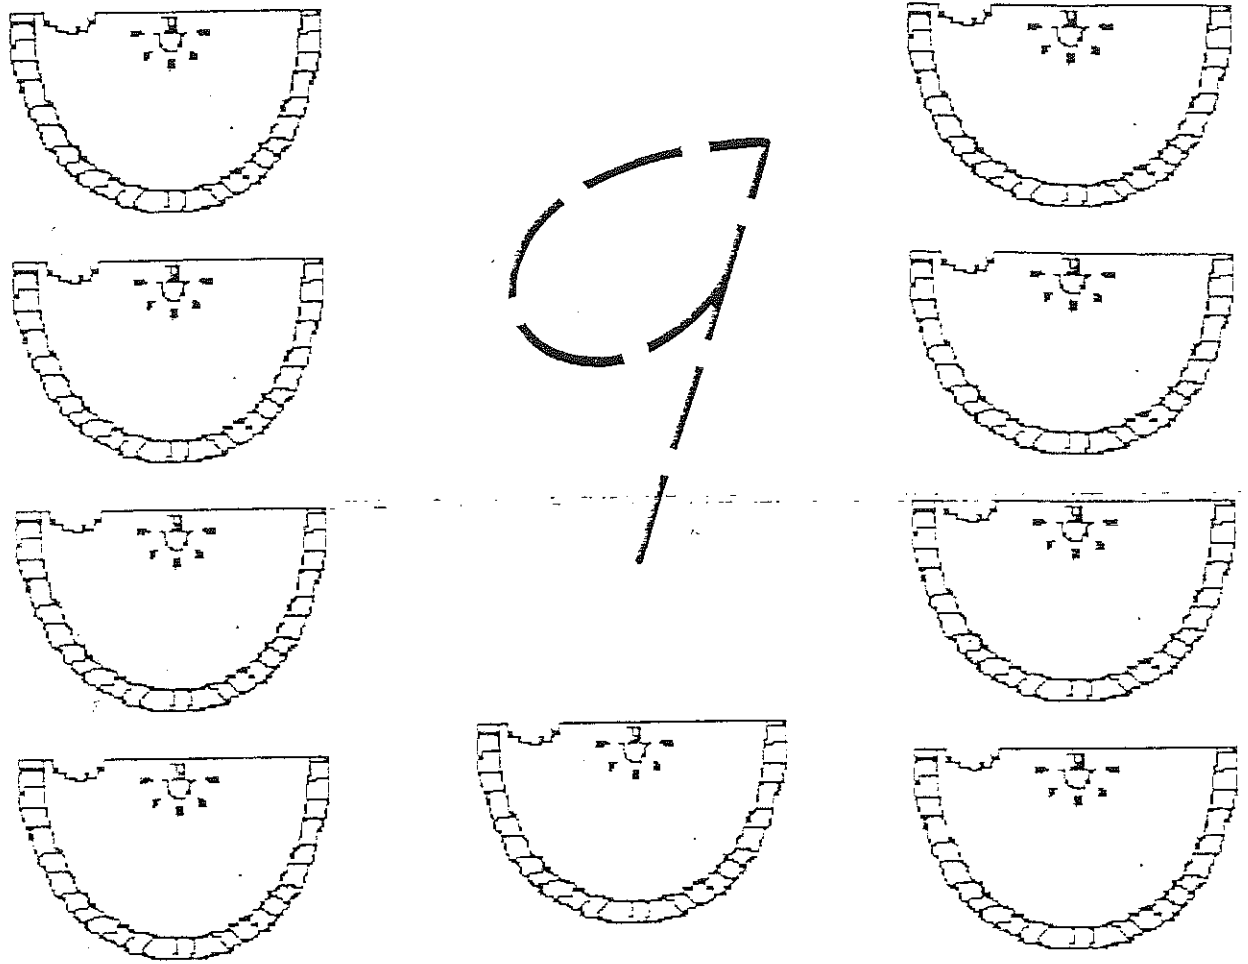

*Across the sky  
And down from heaven,  
That's the way to make a 7!*

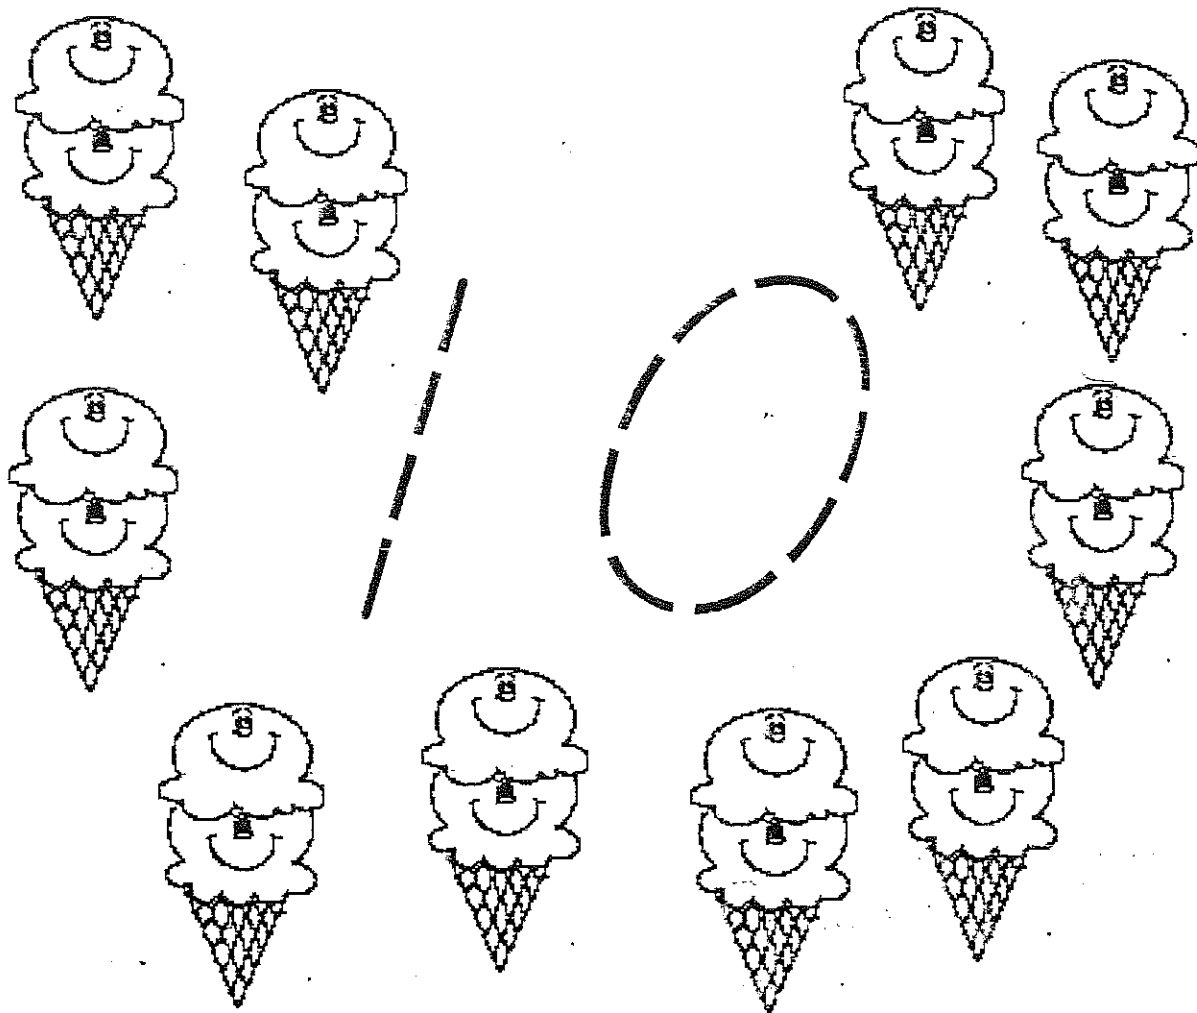

*We make an "S"  
But do not wait,  
Go back up and close the gate!*

Start with a circle  
Finish it with a stick.  
Making the number 9  
Is really no trick!!

First you write a one,  
Next you add a zero,  
Then give a big cheer for  
Number 10 is our hero!
